Re: 2010 Annual Technical Report on Implementing and Monitoring of the San Joaquin River Agreement and the Vernalis Adaptive Management Program

Dear Mr. Grindstaff:

The San Joaquin River Group Authority is please to provide you a copy of the 2010 Annual Technical Report on Implementing and Monitoring of the San Joaquin River Agreement (SJRA) and the Vernalis Adaptive Management Program (VAMP). This report has been prepared in accordance with the State Water Resources Control Board's Revised Water Rights Decision 1641.

In addition to the 2010 VAMP Technical Report, the enclosed CD also contains two supplemental reports prepared by various groups either in support of the VAMP or conducted at the same time as the VAMP. The first is the 2010 fish health evaluation report prepared by the USFWS on the VAMP release groups. This report is also included in Chapter 6 of the VAMP report as well. The second is a report by Natural Resource Scientists, Inc for the California Department of Water Resources on tagging Striped Bass and other predators during the 2010 VAMP period.

Thank you for your interest in this report as we look forward to the continued success in the implementation of the SJRA and VAMP.

Please feel free to call me at the above number if you have any questions. Also visit our website at www.sjrg.org for a downloadable copy of the report.

Sincerely yours,

Dennis W. Westcot
Project Administrator
